

Above and Beyond Community Classes, Inc. Presents:

Musical Connections- How Music Unites Us

Join us via Zoom on Fridays from 6-7:30pm for this beloved, interactive class. As one of our most popular classes, Musical Connections will continue to dive into music genres from around the world...discovering the many ways that music has the power to unite and bring communities together. Students are encouraged to share and even perform their favorites as we discuss harmony, rhythm and melody and how each song can mean something different to everyone. Instructor Erin Vlasak has almost 20 years of teaching and loves every minute she is with students!
