# **FUNDAMENTALS OF ANIMATION: Worldbuilding**

**with Kadin Napoli**

What makes a fictional world believable? How do we create characters who feel like they belong in those worlds? In this interactive Zoom art class, we will explore the concept of worldbuilding, or the art of creating fictional worlds. How do people greet each other? What do people do for fun? Together, we will examine fictional worlds and characters that already exist, look at how and why they are successful, and use this and try to create our own! (Revised 2/15/2023)
