PERFORMING ARTS: Acting and Scene Creation

with David Macaluso

In this interactive class, students will collaborate on creating and bringing to life weekly scenes that the class “produces.” By creating these weekly minis, students will learn acting, communication and play writing skills in order to showcase their work. Join us to learn more about staging, costumes, sets, creating dialogue, lyrics, and how all great performances started as a tiny seed of an idea! Students can attend in person in Hauppauge and/or be zoomed in to participate.
