Since the 1930's, storylines about superheroes have received global attention and stolen our hearts. Often their stories reflect the current historical and cultural pulse of our nation. Via Zoom or in person, this interactive class will teach students about the creative inspiration, artistic design and filmography that has evolved to define the DC franchise. Students will also study and assess the character development behind favorite DC superheroes. From Batman, Superman, and Wonder Woman...students will learn about their background stories, powers/abilities, weaknesses and the motivation behind why they chose to protect. Join instructor Gabby S. to assess the DC characters individually and expand this learning to assess international impact.
