Literature & Writing

with Kadin Napoli

This class will allow seasoned and beginner authors to come together, share their work with peers, and hear feedback from all of their fellow writers in class! We will discuss different forms of writing, including fanfiction, screenplays, and visual novels; how to stay motivated to continue a story; how to edit; and how to publish your work safely online. This interactive and collaborative class will also allow students to brainstorm ideas together and share all of our favorite media that inspires us to create!
