Art & Drawing: Space & Form

with Kadin Napoli

In this class, students will learn the basics of drawing people and objects within a space. Together with Instructor Kadin Napoli, students will discuss how to make a drawing look three-dimensional, how to create a pleasing composition, tips and tricks to practice and make art easier, and why these skills are important to create bigger and better projects. We will also discuss how professionals use these skills in their own work. Students will also be given the opportunity to share their art, ideas, and inspiration with the class, and brainstorm exciting future projects together!
