Our Universe Series with Gabby: Focus on Space, Planets and Stars

Fall I Session 8 weeks: \$360.00

Fridays- 9/8, 9/15, 9/22, 9/29, 10/6, 10/13, 10/20, 10/27

Fall II Session 7 weeks: \$315.00

Fridays- 11/3, 11/10, 11/17, 12/1, 12/8, 12/15, 12/22

Did you know that our sun is 9,930°F? Wow! Taught by Gabby Sharp, this interactive class is the first in a new series that will focus on the mysteries and science behind our universe. This series will discuss a range of topics from the start of the universe, to the planets that surround us, and end with the land and sea of our planet. Have you ever wondered how our solar system was made or what's at the bottom of our oceans? Students will be given the chance to ask research questions and participate in thoughtful discussions about our incredible universe. Gabby's teaching and educational interests make her the perfect instructor to bring this new class to BUE.
